

Conference Programme, Friday 13.04.2007

9:00 PLENARY MEETING: Opening by **State Secretary Christa Kranzl** and **National Councillor Karlheinz Kopf**,
Provincial Minister of Economic Affaires Manfred Rein, **Mayor Markus Linhart**, **Director of Building Services Wolfgang Ornth** and **Josias Gasser**
9:30 Angela Köppl: Macroeconomic Aspects of highly efficient Building Technologies
10:00 Mark Zimmermann: Impact of Energy Standards on the Environment
10:30 Wolfgang Feist: Setting off to Energy Efficiency
11:15 Joint visit to the exhibition

13:00 Lunch

GROSSER SAAL	SEESTUDIO	SAAL BODENSEE	SAAL PROPTER HOMINES
Session 1: Architecture and the Passive House Chairlady: Hannelore Deubzer	Session 2: Modernisation using Passive House Components Chairman: Peter Holzer	Session 3: Passive House Components Chairman: Johannes Werner	Session 4: Passive Houses in cold Climates Chairman: Theodor Zillner
14:30 Raimund Rainer Passive House High School Brixlegg-Tirol	Heinz Plöderl, Bernhard Gasser Example Schwanenstadt	Rainer Pfluger Constructional and technical Noise Protection for Passive House Compact Devices	Szymon Firląg Certified Passive Building in Poland
14:50 Georg Kogler >house on the mühlweg	Burkhard Schulze Darup Project report Bernadottestrasse 42 - 48	Herbert Bley Development of a Compact Device on a Gas Basis	Ulla Janson Experiences from Apartment Buildings as Passive Houses in Sweden.
15:10 Florian Lichtblau Multi-family House built from Wood	Matthias von Oesen Modernisation of a Furniture Store in the Passive House Standard	Christof Drexel Economy and Energetic Performance of semi-centralised Concepts	Stephan Tanner, Thomas Rühle, Edwin Dehler 1st Certified Passivhaus in the USA: Innovative, Integrated Building Technology in a Cold Climate
15:30 Georg W. Reinberg Solar Passive House - Day Nursary in Wien	Dieter Wolff Equivalent Energy Price for Modernisaton using Components appropriate to the Passive House	Jürgen Schnieders Comfort Requirements for Passive House Windows	Tor Helge Dokka Passive House Projects in Norway - An overview

16:10 Coffee break

SAAL BODENSEE	SEESTUDIO	GROSSER SAAL	SAAL PROPTER HOMINES
Session 5: Experience from Construction Practice Chairman: Robert Borsch-Laaks	Session 6: Large Passive House Projects Chairman: Hannes Bauer	Session 7: Economic Efficiency, Financing and Marketing Chairman: Manfred Görg	Session 8: New Passive Houses and Renovations Chairman: Henk Kaan
16:40 Werner Füßler A Passive House Quarter is developed	Wilhelm Hofbauer, Christian Wolfert Passive House Dwelling House Complex Pantucek-Gasse	Andreas Franzelin Marketing for Passive Houses? Potentials deduced from Experiences with the South Tyrol „ClimateHouse“	Michiel Ham A Renovation Challenge: From outdated 1953 to Passive House 2007
17:00 Gernot Vallentin Routes to a free Design for cost-efficient Passive Houses	Roland Matzig Solar quarter in the Rosengarten	Tobias Timm Marketing of Building Land intended for the Construction of Houses in the Passive House Standard	Henrik Tommerup Energy Renovation of a Typical Danish Single-family House
17:20 Ludwig Rongen Increase in the Satisfaction of Inhabitants of Passive Houses / Avoidance of Constructional Faults	Manfred Brausem 10 years of Experience in Passive House Planning „Sensitive Points“	Gerrit Horn Effect of the Passive House Standard on the Financing of individual Living Costs	Henrich Pifko Affordable Passive Houses for CE Countries
17:40 Ernst Heiduk Experience with the Passive House Standards in the Education of Architects	Martin Treberspurg Multi-family Houses in Passive House Construction in Vienna and Lower Austria	Ernst Michael Jordan About the economic Benefits of Passive Houses	Joseph D. Brannon Success of PassivHaus in Economic Analyses of Military Family Housing

20:00 Evening event (reservation must be made in advance)

Conference Programme, Saturday 14.04.2007

09:00 PLENARY MEETING: Jón Kristinsson: Experience with high Energy efficient Buildings in the Netherlands
09:30 Helmut Krapmeier: Passive House: Market Implementation Strategies
10:00 Martin Sambale, Peter Holzer: Qualification as a Passive House Planner - what are the Roads to Success?

10:30 Coffee break

SAAL BODENSEE		GROSSER SAAL		SEESTUDIO		SAAL PROPTER HOMINES	
Session 9: Architecture for Passive Houses Chairman: Otto Kapfinger		Session 10: The Building Skin for Passive Houses Chairman: Martin Ploss		Session 11: Service Experience Chairman: Harald Gmeiner		Session 12: Passive Houses in Hot Climates Chairman: Jürgen Schnieders	
11:00 Heinz Plöderl Wels Fair Centre - Passive House Standard for the „Energy Saving Fair“		Claus P. Baumeister Building automation in Passive Houses		Fritz Oetl extremely cozy		Ljubomir Mišćević Passive Houses in Croatia - Projects and Realizations	
11:20 Martin Rührnschopf Simultaneously planned Passive Houses		Tanja Schulz Limits to the heatbridge-free Construction		Sebastian Herkel Operating Experiences of the Zero Energy House in Voggenthal		Katrin Klingenberg Passive House under Construction in California	
11:40 Simon Speigner Exemplary Dwelling House Constrution Samer Mösl, Salzburg		Christof Stölzel Quality Assurance for VIP Elements		Peter Schwerdtfeger Building Technology in Multi-story Construction – example Sophienhof		David Stecher Warm Climate Building Strategies	
12:00 Michael Tribus Conversion and Renovation of the former Post Office Building in Bozen		Oliver Kah Air Exchange and energetic Consequences of Door Opening Processes in the Entry Zone of a School		Ernst Blümel Monitoring the Housing of the Future! - Measuring Results for sustainable Building for various utilisation Types		Gabriele Masera A Passive School in Milan: Exemplary for temperate climates	

12:40 Lunch

SEESTUDIO		GROSSER SAAL		SAAL BODENSEE		SAAL PROPTER HOMINES	
Session 13: Non-residential Buildings Chairman: Rainer Vallentin		Session 14: Old Buildings redesigned Chairman: Burkhard Schulze Darup		Session 15: Active Implementation of the Passive House Standard Chairman: Martin Sambale		Session 16: Trends and Experiences Chairman: Robert Hastings	
14:30 Klaus Kiessler SOL4 Eichkogel Office and Seminar Centre I		Detlef Christ Exisiting Multi-family Passive House. Realisation - Self-building - Utilisation		Thomas Leiser The Südstadt Forum „Qualification and Culture“ in Nuremberg		Alexandra Troi Overview of Realized Passive Houses in South Tyrol / Italy and Trends	
14:50 Søren Peper Passive House Primary School Frankfurt a.M. - Monitoring results		Michael Felkner Rationalisation Options for Building Renovation using Passive House Components		Helmut Bruckner Experience Passive House Quality with Emotions		Yan Schmitt PaMo - Monitoring of a Passive House in South Tyrol, Italy	
15:10 Georg W. Reinberg Working and Quality of Life in the clay pre-fab Passive House		Thomas Knecht Factor 10 Modernisation - Neuschwansteinblick		Günter Lang Is something less than the Passive House Standard still affordable?		Roel De Coninck Design of the self-supporting Belgian Antarctic station: a passive building running on sun and wind energy	
15:30 Gunter Lindemann Passive House Office Building EnerGon measured Results and Operating Results		Albert Schmid-Kirsch, Peter B. Schmidt Energetic Renovation of the St. Nicolai Community Hall, Hanover		Matthias von Oesen, Ulrich Imkeller-Benjes Passive House Supply Variants		Barbara Faigle, Stefan Oehler 10 years of Passive House construction	

16:00 Coffee break

16:30 PLENARY MEETING: Summaries from the sessions
17:15 Wolfgang Feist: Tasks - Challenges - Outlook
17:45 End of the meeting

Arriving to the Festival House Bregenz

Arriving by Trail

The Festival House Bregenz is situated very close to the central station of Bregenz (walking distance of approx. 5 minutes).

Arrival by Plane:

The next international airports are:

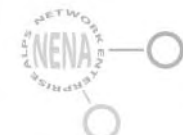

Zurich/Zürich (Switzerland) – 120 km
Munich/München (Germany) – 215 km
Stuttgart (Germany) – 200 km

The next smaller airports are:

St. Gallen – Altenrhein in Switzerland (22 km) and
Friedrichshafen in Germany (33 km)

Arriving by car:

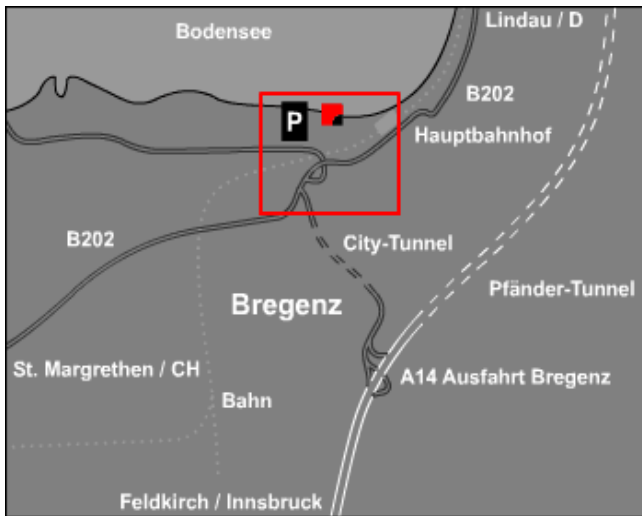

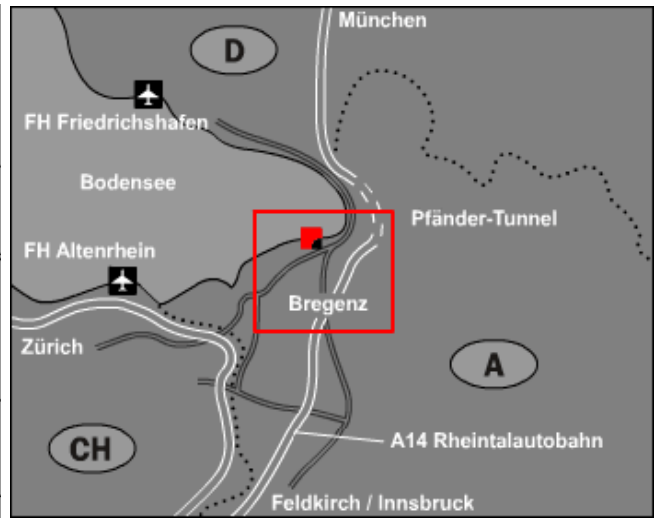

from Vienna and Innsbruck Motorway A 14 (vignette obligated)	Motorway A14 - exit to Bregenz City-Tunnel – turn right after the tunnel – after approx. 400 m turn right – go over the bridge (look for the „Festspielhaus“ sign) – after the bridge turn right into the parking lot in front of the Festspielhaus
from Switzerland Motorway (vignette obligated)	Motorway-exit St. Margrethen – direction Bregenz - across the border at Höchst (A) – turn right at the traffic lights – follow the B 202 to Bregenz (pass Fussach and Hard) until you see the sign „Festspielhaus“ – turn right and go over the bridge - after the bridge turn right into the parking lot in front of the Festspielhaus.
from Germany Motorway A 14 (vignette obligated)	Motorway A14 – Pfänder-Tunnel – take the first exit after the tunnel to Bregenz City-Tunnel – turn right after the tunnel – after approx. 400 m take a right turn – go over the bridge (look for the „Festspielhaus“ sign) - after the bridge turn right into the parking lot in front of the Festspielhaus
Interstate from Lindau	B 190 to Bregenz (along the lake) – follow the signs to Switzerland (CH) – approx. 800 m after the railway station turn left on to the bridge (look for the „Festspielhaus“ sign) - after the bridge turn right into the parking lot in front of the Festspielhaus

1st FLOOR

GROUND FLOOR:
Check-In | Information
Food - Seats available
and standing places

Motorway - toll vignette mandatory:

For the use of motorways in Austria a toll vignette is mandatory.

A toll vignette for 10 days validity costs 7.60 EUR and can be purchased at the Austrian border, at petrol stations and at some kiosks.

In Switzerland where also a toll vignette is mandatory for the use of motorways; only an annual vignette is available which costs 40 CHF (27 EUR). The validity of the Swiss toll vignette is 14 months, it starts 1st of December of previous year and ends 31st of January of the following year of that what is indicated on the vignette.

Parking space:

Visitors arriving by car will find several large parking facilities in Bregenz.

Parking fees:

At the "Parkplatz Ost" which has a capacity of 650 parking places (nearby the Festival House) a day ticket costs 4.5 EUR. The ticket can be purchased at the ticket machine at the car park.

Free of charge parking space is available at the "Parkplatz West" (approx. 700 parking places) which is located behind the football stadium. The walking distance to the Festival House is approx. 10 minutes.
