

Passive House components across the globe

Manufacturers' exchange

Framework programme of the:

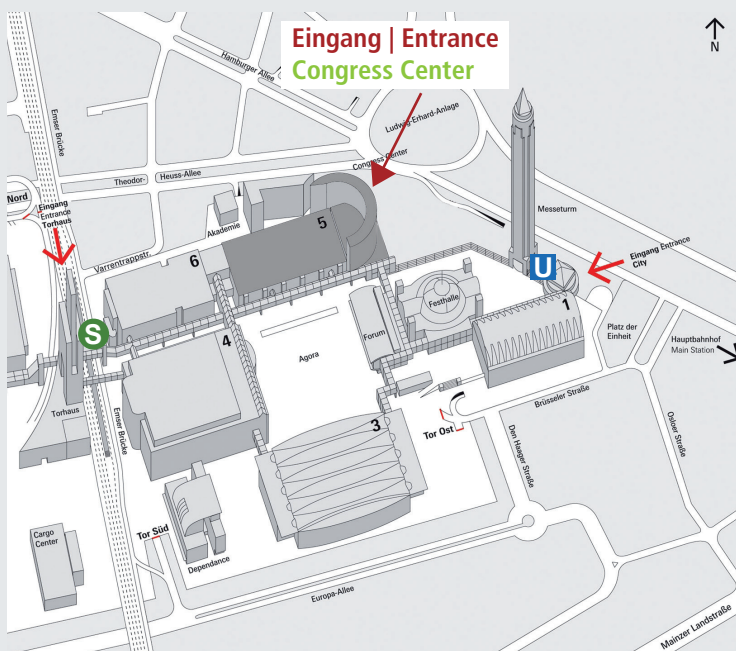

17th INTERNATIONAL PASSIVE HOUSE CONFERENCE 2013

Passive House Components Workshop, Thursday, 18 April 2013

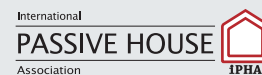

Over the last several years, Passive House has taken off worldwide, creating a growing and, as of yet, unmet demand for high performance, Certified Passive House Components. This workshop aims to narrow the gap by providing guidance on what it takes to develop Passive House components suited to a wide variety of climatic conditions while informing designers and builders on the latest innovations and technologies. This interactive event will also serve as a global networking platform, encouraging cooperative efforts between manufacturers on cutting edge, certifiable components. For more information about this and other framework programme events, please visit: www.passivehouseconference.org

Conference participant rate: €79
IPHA member discount: 50%

How to get there:

Organisers:

Contact: Cornelia Baumgärtner
cornelia.baumgaertner@passiv.de

Sarah Mekjian
info@passivehouse-international.org

Registration: www.passivehouseconference.org

Venue: Congress Center Frankfurt
 Room „Fantasie“ Level C3

Entrance: Ludwig-Erhard-Anlage
 60327 Frankfurt | Germany

Public transport:

Festhalle/Messe Ludwig-Erhard-Anlage		Messe	Festhalle/Messe
BUS	50 32	S S3 S4 S5 S6	U U4
Tram	16 17	Flughafen Frankfurt/Main	
		S S8 S9 ✈	

Introduction

- 11:00 Introduction | Moderation
Sarah Mekjian | International Passive House Association
- 11:15 Advantages of Passive House Window Certification over national building standards
Matthias Häusler | ENERGATE®
- 11:30 Passive House strategies in different climate zones
Dr. Jürgen Schnieders | Passive House Institute

Climatic Challenges

- 12:00 Criteria and solutions for Certified Passive House Components of the building envelope
Dr. Benjamin Krick | Passive House Institute
- 12:30 Passive Houses building services: A look at cooling and dehumidification
Dr. Berthold Kaufmann | Passive House Institute

International Cooperation

- 1:00 A network of twelve small window producers working in eight European countries
Franz Freundorfer | Pro Passivhausfenster GmbH
- 1:30 The insulated raft in Europe and Canada
Heiko Schröder | ISOQUICK
- 1:45 Building together/solutions and expertise for energy efficiency
Henrik Meyer-Hoffmann | BASF
- Panel discussion
- 2:30 **Coffee break**

International Product Offerings

- 3:15 More Windows - More Energy - More Life
Matthias Häusler | ENERGATE®
- 3:25 Active energy management for passive buildings
Joachim Hessemer | LAMILUX, Strunz GmbH
- 3:35 Roka - Co²mpakt
Holger Rosenbaum | Beck + Heun GmbH
- 3:45 Free balcony architecture in Passive Houses
Simon Zowislo | Schöck Bauteile GmbH
- 3:55 Innovative modular system and elements for timber frame constructions
Jürgen Dudda | CROSS - HOUSE - EUROPA
- 4:05 High efficient thermal insulation systems with intelligent airtightness
Jens Lüder Herms | Moll bauökologische Produkte GmbH
- 4:15 Passive House solutions designed by Sto
Reiner Santo | Sto AG

Networking and Discussion

- 5:00 **End of event**
