

Business Terms and Conditions

► 1. Registration

Registrations must be made in writing. They are binding and will be taken into account in the order in which they are received by the organiser. The number of participants is limited. After registration you will receive an invoice. The early booking discount is only granted if registration and payment have been carried out by 28.02.08. The participation in the conference is only possible when the participation fee has been paid in full. Cancellations of registration must be made in writing. In case of withdrawal of the registration by 15.03.2008 we will charge a processing fee of € 70; the full participation fee will be due in case of later cancellation or non-appearance. It is of course possible to name substitute participants.

► 2. Services

The scope of services includes: the conference proceedings with the presentations for the conference, lunch, coffee breaks. Simultaneous translation into English at all German-spoken sessions. The organiser reserves the right to make any necessary changes to the programme schedule.

► 3. Cancellation, restriction to liability

In the event that the 12th Conference on Passive Houses has to be cancelled the participants will be notified immediately. In this case the organiser is only obliged to reimburse the already paid participation fee. The liability of the organiser is limited in all cases to the paid participation fee.

Friday 11 and Saturday 12 April 2008
Conference and Exhibition

Sunday 13 April 2008
Excursion

EnergieRegion Nürnberg e.V.

► Building for the future today

Interest in new buildings is on the rise, and every new building is an investment in the future. After all, buildings last far more than a generation. Yet our children and grandchildren will inherit a world much different than ours, and the changes can already be seen: raw materials and energy will still be available, just not at today's prices. In addition, the polluter-pays principle will still apply. Those who can meet their needs with a low consumption of resources and little environmental impact can consider themselves lucky.

► Efficiency is here today

Take advantage of the efficiency of tomorrow today by building in compliance with the Passive House standard. The materials, designs, planning methods and experience required are already available. Passive Houses are your guarantee of comfort in the future: by consuming less than a fourth of the energy allowed by German law, you can enjoy this house in the long term without forgoing any creature comforts or living at the expense of others.

► Efficiency that pays for itself today

Energy-efficient construction is not only easy to finance, but even begins to pay for itself from the very first day thanks to subsidies granted throughout Europe. Homeowners can thus enjoy the comfort of tomorrow at an affordable price by offsetting otherwise high energy expenses.

► Efficiency through renovation

In Nuremberg, the „Modernization with Passive House Components“ campaign was launched starting with a demonstration project that drew global attention when it reduced the energy required to heat a typical complex of subsidized housing by 87 percent. In the meantime, the project has been copied numerous times. At the conference, a main topic will be the modernization of old buildings to reduce energy consumption by a factor of 10. As always, the focus will be on practical implementation, construction experience and reviews of results.

Over 1.000 people from Europe, North and South America and Asia are expected to attend the 12th International Conference on Passive Houses in Nuremberg. They will be introduced to the latest developments in energy efficient architecture. The organisers invite anyone who is involved in energy efficient construction to submit a paper to the conference. Instructions on the preparation of abstracts are posted on www.passivhaustagung.de. The submission deadline is October 26th 2007.

► The 2008 conference will focus on the following themes:

1. Passive Houses - from residential to commercial
2. Assessment of completed Modernization Projects
3. New Components for energy-efficient Buildings
4. New Components for Home Ventilation Systems
5. Special Examples of Passive Homes
6. Panel: Quality Assurance in Construction
7. Panel: Residential Trade and Industry regarding Energy
8. Panel: Passive House in Communities, Countries, Regions

► International Sessions (only abstracts in English are accepted)

9. National Studies: What is a Passive House in....
10. Documentation of already built Passive House Examples - Residential
11. Documentation of already built Passive House Examples - Not Residential
12. New Materials and New Solutions for the Building Envelope - Cold Climates
13. New Materials and New Solutions for the Building Envelope - Hot Climates
14. Experience with Ventilation in Different Climates
15. Panel: Communicating the Passive House
16. Panel: Economy, Ecology, Sustainability

The detailed programme will be announced in February 2008.

2008 Passive House Exhibition

Beat escalating energy costs! Passive Houses allow for more comfort and lower energy demand: Intelligent solutions for old and new buildings will be on display at the 2008 Passive House Exhibition in Nuremberg.

- Manufactures of windows, doors, ventilation systems and insulating materials,
- Providers of building parts, construction systems, technical services installations and solar companies
- Craftspeople, specialist federations, architecture and engineering offices

They present building components and products which reach the top standards for energy-efficient building through high quality and innovative technology.

- Conference and exhibition take place directly next to each other in the Exhibition Centre Nuremberg.
- A support programme of lectures is directed at conference and exhibition visitors. Here exhibitors can present their products and services.

We would be pleased to welcome you at the 2008 Passive House exhibition.

► 2008 Passive House exhibition

Date: Friday 11 April – Saturday 12 April 2008
Location: Hall 1 of the Exhibition Centre Nuremberg
Opening hours: 11 April 2008 • 9 am - 7 pm
12 April 2008 • 9 am - 5 pm
Exhibition area: 3.000 m²

► Target public:

The exhibition is directed at interested building owners and specialist visitors such as architects, building specialists, planners, energy consultants, producers of building products, companies in the building industry, housing industry and energy providers.

► To order the exhibitor documents:

Passivhaus Institut, Tel: +49 (0) 6151 / 82699 35, tagung@passiv.de

Early booking rate for exhibitors until 15.12.2007
It is recommended to register early as the available exhibition space is limited.

Registration

Registration for participation at the 12th international conference on passive houses 11. - 12.04.2008

Name, first name: _____

Company/institution/authority: _____

Street: _____

State code/postal code/Town: _____

Phone/fax: _____

E-Mail: _____

► Please tick:

- ☐ Participation Friday and Saturday 11 and 12 April 2008
- ☐ Participation only on Friday 11 April 2008
- ☐ Participation only on Saturday 12 April 2008
- ☐ Participation in the evening event Friday 11 April 2008
- ☐ Participation in the excursion to already built Passive Houses, Sunday 13 April 2008 (only for registered participants at the conference)
- ☐ Member of the IG Passivhaus
- ☐ Speaker selected by the conference advisory council
- ☐ Student - copy of the student ID card enclosed
- ☐ Registration and payment carried out before 28.02.2008

The participation fee is € _____
(invoice will be served)
